Representative Brand of Urbana, O., regarded as an insurgent on the administration's farm-relief plans, caused a flurry among the legislative and farm leaders when he issued a statement in which he accepted the farm-relief plans laid down by Mr. Hoover. Brand has been an opponent of the present administration's farm policies for several years and his change of heart after his talk with Mr. Hoover today is believed by some to mean the collapse of the insurgent movement in Ohlo.

"The Republican farmers of Ohio axee with him when he says the tariff is the solution of the farm problem," said Representative Brand.

"They agree with him that the farm problem," said Representative Brand.

"They agree with him that the farm problem is the chief concern of the nation at this time and presses for solution."

HOOVER GUARDS WORDS

HOOVER GUARDS WORDS

Mr. Hoover expressed himself briefly and guardedly today to the farmers and politicians who came to see him on the lawns of the Douglas estate near town. His idea in not being more specific at this time, he told one group of farmers, is that there are forty plans for farm relief in this country, each having supporters and opponents and that if he set one up himself it would only give something to shoot at.

Mr. Hoover has some specific plans for this problem, which is next to prohibition on the major issue of the campaign in the West. He told the Minnesota group that called on him that he will co-operate with farm leaders in trying to get legislation out of the present Congress.

The Minnesota delegation led by Gov. Christiansen and Representative Harold Knutson asked him to call a special session of Congress if he is elected. He was not asked to commit himself on this and did not. He would see how things worked out, he said, and in the meantime would aim at the session next winter for results.

The men wore bathing suits when they were lowered in the diving bell by the diving ship Crilley. Lieut. He dived from beneath the bell and made his way to a cable let down by the diving ship. Hand cver hand he ascended, taking care to prevent too rapid decompression which might result in death or serious injury as a result of diver's "bends." When he came to the surface he said, he had experienced no difficulty although his body was slightly swollen as a result of internal air pressure. Eadie then went down and made the ascent.

## FARMERS' HOPE

Protective Tariff Support Called Vital

Senator Watson Attacks Democrat Plank

Iowans Told Republicans Will Keep Pledge

CEDAR RAPIDS (Iowa) Aug. 23. (P)—Senator Watson of Indiana told an Iowa audience here tonight that the American farmer must stick protective tariff system if he expects

to receive adequate protection for his industry. his industry.

Herbert Hoover, Republican standard bearer, "backed by a real protective tariff party, will emact a tariff measure that will insure to every branch of American industry the most adequate protection ever provided in the history of this land," Senator Watson promised.

SCORES DEMOCRATS

Referring to the speech of ac-ceptance last night of Gov. Smith of New York, Democratic Presiden-tial remines, and to tariff provisions

of New York, Democratic Presidential nominee, and to tariff provisions of the Democratic platform, Senator Watson charged the Democratic standard bearer and the Democratic standard bearer and the Democratic statement of principles are both inconsistent.

"Many of the very men who wrote the Democratic platform at Houston for years have announced and reannounced their hostility to the doctrine of protection," he said. "How then can they lead either the manufacturers or the laborers or the farmers to believe that all at once, overnight, they have abandoned their own personal convictions and are willing now to become high protectionists?"

"Gov. Smith in his speech last night, said Senator Watson, "practically indorsed the Underwood tariff bill." Under that measure, charged the speaker, this country was headed for panic until the European war intervened. Senator Watson said that Oov. Smith in last night's speech had indicated that he would be satisfied with a measure similar to the Underwood bill which placed many agricultural products on the free list.

REVISION CERTAIN

REVISION CERTAIN He declared the tariff is certain to be revised shortly and added that if the Republicans are in power, the pledge made at Kansas City will be carried out "to provide adequate tariff protection for such of our agricultural products as are affected by foreign competition." This, he said, will very largely contribute to solving the farmers' problems.

The last tariff bill passed by the Democratic party, he said, "clearly

#### PRESS RADIO PLANS BALKED

Newspapers as Whole Must be Represented

Individual Ownership and Control Discouraged

Two Short-Wave Stations Planned Here

BY MARTIN CODEL

WASHINGTON, Aug. 23. (Excludive)-The American press must be aken by the American News Traffic Association. This was ruled by the Federal Radio Commission today in Federal Radio Commission today in ordering the press group to draw up a new plan of incorporation and organization for the utilization of the twenty short-wave channels recently granted to its member newspapers and press associations for the purpose of transmitting news.

Separate ownership and control of the radio stations in the project-ed press network was definitely discontinuously.

of the radio stations in the project-ed press network was definitely dis-couraged when Judge E. O. Sykes, speaking for the commission, told sponsors of the project at a public hearing that their proposals were entirely out of accord with the au-thorizations contained in the con-struction permits for the sixteen radio stations issued by the com-mission last May.

ALLOTMENT PROPOSED ALLOTMENT PROPOSED

The American News Traffic Association proposed to have its individual members own their transmitting and receiving stations and to allot to them the use of specific wave lengths. While agreeing to open these separate stations to rival press associations or newspapers, the American News Traffic Association was unwilling to organize a single public-service communications unit which would handle traffic for all the American press on a basis of equality.

"(1.) Compulsory registration. This would be justified upon the tion was that the association wanted to avoid the necessity of investing large capital to build up a large radio communications company. The project, he said, is experimental and the members are unwilling to take the risk collectively.

Chairman Robinson pointed out that the collective capitalization of a trust company, dorporation or stock company involved no more risks than the separate action of each of the members in building radio stations.

The upshot of the hearing was a demand by the commission that the press group present a more favorable scheme of organization or have its wave-length assignments revoked. The association was allowed until October 1, next, to allowed until

of equality.

When the proposals were outlined today, members of the commission balked unanimously. Chairman Robinson declared that his conception of the project is that all the press of the United States should be enabled to file dispatches on equal terms, whether or not the newspapers or newspaper correspondents are members of the sacciation. He presumed, he said that the applications of last spring contemplated a unified public-service enterprise.

Judge Sykes asserted that the construction permits were never intended to give the wave-lengths to individually owned stations, or he would never have approved their issuance. He agreed with Chairman Robinson's view that, in the event of failure to render service to rival newspapers, there would be no one liable under the public utility law, and he objected vigorously to the legal complication involved in the enterprise as outlined.

COST DISCOURAGING

Counsel for the association, Dwight P. Green of Chicago explained, that the reason for the

NEW YORK, Aug. 23. (P)—Fourteen speaking engagements in eight Southern States were announced today by the Democratic Speakers' Bureau for Senator Robinson, the party's Vice-Presidential nominee. These are in addition to a previously scheduled address in Dallas, Tex., September 3, next.

The program will keep the Senator on the go almost continuously for the three weeks after his formal notification as Vice-Presidential standard bearer at Hot Springs, August 30. The next day, August 31, he will go to Lonoke, Ark., his birthplace, for a homecoming celebration and thence to Dallas.

The Speakers' Bureau, which is handling all of the Senator's engagements, has yet to work out an itinerary.

The Governor was asked whether he thinks there is anything inconsistent in a dry Democrat running for the Senate or House on the ticket with him.

"Everybody who is nominated for office stands on the platform of the supreme body of the party, to wit. The national convention," the nominee replied.

"Then you don't regard them bound by your acceptance speech?"

"No one can amend the platform," Mr. Smith came back, dismissing the subject,

"Has the reaction to your speech been favorable?" he was next asked.

"Yes, judging from the messages I have received." He reported that telegrams from all parts of the country had reached him at the executive mansion in bundles of fifty to 100. He estimated that at least 3000 arrived within an hour after he had concluded delivery of his acceptance speech.

The Governor said that if anyone had sent him a message expressing disapproval of any of his views he had not seen it. SUPERIOR (Wis.) ANNOUNCING the new Radiola Super-Heterodyne with A.C. electric operation

Everybody has been waiting for it.

And here it is—the first of the new "60" series of RCA Super-Heterodynes with A.C. operation.

It looked like an easy problem—to the layman. Super-Heterodyne plus A.C. tubes equals A.C. Super-Heterodyne.

But the engineers at General Electric and West-inghouse and in the RCA Research Laboratories —with all the world's knowledge of radio at their command—took a year to solve it.

Not merely to design a receiver that would be worthy to bear the RCA mark of excellence, but one that would be a step beyond any receiver

**Architectural Restrictions** Insure Permanent Beauty in HUNTINGTON PALISADES

Nature has endowed Huntington Palisades with a strategic isolation from detracting encroachments. Picturesque canyons and the ocean form natural protective barriers.

Man has perfected a comprehensive plan for the perpetuation of this advantage. A committee of eminent specialists empowered by the terms of the deeds, passes on all building plans and suggests the location of the homes on each site to obtain the fullest view without interference of one with the other, and to insure the creation and perpetuation of a pleasing and harmonious ensemble.

It is well to consider this phase of your future home place NOW -rather than to suffer the disappointments so prevalent in what only yesterday were considered to be I.os Angeles' most exclusive residential districts.

Come and inspect Huntington Palisades-note its beauty-the fine complete improvementsthe trees and the climate—then npare prices. You'll find this to be the outstanding real estate opportunity.

\*California courts have held that the architectural as well as the monetary restrictions provided for in the deed are enforceable.

The association has found itself in the self-conscious plight of an honorable jurist with a deep devotion to a well-known sacred heritage who takes the bench in a gyrating courtroom, chewing a clove, to pass judgment on his own bootlegger and solemnly acquits the defendant lest he incriminate and degrade himself and sully the honor of his court. This is good wrought from evil.

Throughout the long successions.

Throughout the long succession of Tilden cases the association has been aware that if there was no William T. Tilden in the big tournaments the tournaments would not be so big. The receipts would be negligible or nearly so, and the association would be correspondingly reduced in all its powers and dimerisions.

It has further realised that no man could play tennis as well as Mr. Tilden if he had to devote himself to the routine of shaping in a career and earning a living. Deeming the perpetuation of the tournaments and itself to be more desirable than scrupulous observance of the amateur theory, the association has consistently ruled that even if Tilden did what he was charged with doing, guilt was too strong a

#### CLUBS PUTTING ON SEVERAL THRILLING PENNANT RACES FOR EXCITED BASEBALL PLANS

Baseball all over the country has enjoyed more prosperous sea-sons than the present one but it is doubtful if there has ever been a year when the outstanding leagues furnished fans more thrilling races than at this time. New

York and St. Louis are bat-

races than at this time. New
York and St. Louis are battling it out in the National
League, first one on top and
then the other. This morning finds the Cards back at
the head of the heap, one
point in front of John McGraw's hired hands. The Reds
even have an outside chance
of getting some place, being
but three and one-half games
behind the Giants, A giance
at the schedule shows that
New York has the best of it,
with a flock of home games
coming up.

The Giants play something like seventeen games at home and
what is more to the point have Boston, Brooklyn and Philadelphia
as their main opposition in the future.

In the American League it's not quite so exciting but there's
plenty of interest what with Connie Mack's boys gradually crawling
up on the Yankees. Today the Athletics are four and one-half games
behind. New York's socking power makes the Yankees the best bet,
but Connie Mack's pitching staff has been showing better than the
metropolitan tossers and this may decide the issue in the end.
Hollywood, by defeating Sacramento yesterday, moved into a tie
for first in our own Coast League. The Stars are going to be
mighty hard to beat during the next sk weeks. Oscar Vitt has his
club hustling as usual and the boys are making the breaks for themselves. Hollywood's pilching staff is by far the best in the league,
what with Shellenback, Rhedes, Kinney, Couch, Hulwey and McCabe
hurting in top form. And the Star infield is the class of the league.

San Francisco is only four games behind the twe leaders, but the

Larnin there was nothing to it. After that fight McLarnin went cast and has been cleaning up ever since. Snell has always been ready for a rematch but McLarnin hasn't had any desire to fight young Mr. Snell of Seattle. He may be forced into a fight if Snell can mop up all the lightweights in California. Manager Tom Gallery has a fast card for tonight's entertainment. They know what Snell and Barron are capable of doing. There isn't much chance of the main event slipping and it wouldn't be surprising to see Snell cop by the kayo route though some look for the Mexican to give Snell a boxing lesson. Opinion as to the outcome of the bout is divided. If Snell should win he may get another fight next month. Joe Guerrero, and Dick Hoppe would like the next date with Snell.

Hoppe would like the next date with Snell.

One gent on the card who will get the ence over very carefully is Paul Delaney. When asked who he would like to fight Delaney challenged any one in California. He got Joe Cordoza a rough customer from Culver City who knows something about the art of sock himself. Delaney is a star in the Northwest and if he beats Cordoza tonight he stands a mighty good chance of jumping right into a main event. The Delaney-Cordoza looms up like a tough one for the main event to follow.

There is an entirely new special event. Freddie Albin and Red Breen, bantamweights, will step in while Ramon Lugo and Frankie Boldt step out. Lugo was pulled off the card by the Boxing Commissioner so Tom Gallery changed the fight. Albin and Breen are tough monkeys and the fight should be a thriller. A playful pair of heavy-weights are Sleve Ramos and George Trenkle with Trenkle having the duke raised at the finish. Jackle Caston, a newsboy from Scattle, and Alfredo Sampson, a Filipino, open the show and Caston should cop if he is half as good as his reputation. STEEPLECHASE

Zorilla is already under 127
pounds, while Sangor is having
much trouble in getting down
to the featherweight division.
Both boxers met at the commission office and Zorilla stated he
would take Sangor's forfeit if he
did not make the weight.

The weight question has been ender point in this match since was made. Sangor says that if he fails to do 127 and the Panamanian picks up his forfeit, he will knock him out just like he did Bud Taylor

Witt Ross, manager of the little bow-and-arrow boy, says Zorilla may box for two titles in his next two matches after Sangor. One would be with Tod Morgan for the junior lightweight championship in San Francisco, and the other with Tony Canzoneri for the 126-pound title in New York.

Zorilla weights but 124 pounds.

Zorilla weighs but 124 pounds, but his style of fighting enables him to box in two classes. The Panamanian stood sparring partners on their heads yester-day with his speed.

Act of Journalism Charged Against "Big Bill"

Famous Court Star Falls to Reporter's Level Pegler Expects Conviction

(Continued from Ninth Page)

After Many Trials

(Continued from Ninth Page)
that childish essays, produced in person, are no less deplorable than fairly competent ones produced unwillingly.
One of the most distinguished lady players has produced handwrought articles of such a type that persons with the best interests of lawn tennis at heart have become alarmed lest the public shall come to believe that tennis exaits the physique at the expense of the intellect.
Then there is journalism in the third degree of which Mr. Tilden now stands accused again. This category embraces journalism of a fairly workmanlike type, produced by the accused in person, but covering forbidden matter, to-wit, news of tournaments in which the defendant is currently engaged.

LOWLY SCRIBE LOWLY SCRIBE

The only objection to journalism of this type seems to be that it places the accused in the status of a reporter. The association can abide journalists of the reflective reminiscent or chatty types but not reporters and consistent with this abhorrence, reporters covering tournaments are rigidly segregated.

At Forest Bills, L. L. the cand.

naments are rigidly segregated.

At Forest Hills, L. I., the capital of tennis industry, reporters are admitted through an obscure gate about a quarter of a mile from the clubhouse and are forbidden to enter the clubhouse even to purchase meals for cash. It should not be inferred, however, that the club is unkind to reporters, because every evening the steward garners odds and ends of food from the members' tables, creates tasty sand-wiches and sends them down to the press marquee by a waiter the press marque by a waiter who heaves the basket into the press stand and jumps nimbly behind the wire fence to watch the ferocious beasts fight over them.

them.

Some of the members of the club, amused by the scene, took to heaving petits fours and crusts of caviar sandwiches through the grating so a house rule was promulgated reading, "members will refrain from feeding petits fours and caviar to the reporters as it tends to arouse them to a social consciousness."

Obviously then, the association does not wish Mr. Tilden to do anything that might give him even the vaguest seeming of a reporter. On the veranda of the tennis capital where the players toil over their experience, they conclude that Mr. Tilden will now be convicted and suspended for a long period. His guilt and his game rise and fall on a compensating scale, the guilt decreasing as his proficiency and power climb. But a conviction would be a startling occasion. Mr. Tilden's game has fallen off somewhat but it does not seem as bad as that.

SAN PRANCISCO, Aug. 23. (P)-Anticipating a gate reaching around \$100,000, Promotor Ancil Hoffman announced today he would have to install extra seats in the San Francisco baseball park for the Mickey Walker-Armand Emanuel fight Monday night. Hoffman received word that 50 vessels of the Pacific fleet, arriving tomorrow, will put 20,000 sailors on shore leave on the night of the fight.

OLYMPIC PENTATHLON WON BY S. A. THOFELDT

The Olympic modern pentathlon championship was won by S. A. Thofeldt. The five-event competition is calculated to face a soldier with the obstacles he would encounter if on courier duty. Thus
the contestants are required to perform the equivalent of swimming
a good-sized river if forced to, riding a horse at high speed over
rough going, defending themselves
with sword and firearms, and running on foot.

FINLEY BATTLES WITH

MYERS IN BAY CITY Matchmaker Wad Wadhams took steps yesterday to try to bring Morgan here for the winner of Tuesday night's battle. Frank Churchill said that San Francisco wanted Morgan to box Zorilla, but in case that Sangor wins here would bring Tod to Los Angeles.

Morgan's next start is with Wildest Carter in Seattle.

SAN FRANCISCO, Aug. 23. (P)—

Jimmy Finley, welterweight from Louisville, Ky., takes on Pete Meyers, San Francisco, in a ten-rounder at Dreamland Auditorium tomorrow night. Both are heavy punchers. In Finley's only appearance here more than a year ago, he won a decision over Jimmy Duffy.

#### HAYWARD AND CHICK EVANS MEETS DOLP TODAY IN SEMIFINALS OF WESTERN AMATEUR GOLF

CHICAGO, Aug. 23.—The fate The two matches of the quarter-

that shapes the finishes of golf tournaments took one of those customary queer twists in the Western amateur championship at Bob O'Link today, with the result that two former winners meet in one of the semi-final matches tomorrow, while in the other are two young men who play fine golf but whose names have yet to be engraved on any picturuse championship hardware.

The two matches of the quarter-finals in which the champions came through ran to form, Chick Evans of Chicago, defeating Keyneth Hisert, Chicago, 6 and 5, and Frank Dolp of Portland elliminating Ira L. Couch, Chicago, 4 and 3. But the other two in which Gus Novotny, Chicago, won from Dr. O. P. Willing of Portland, one up, and Lawrence Moller, Quincy. Ill., defeated Rial Rolfe. Chicago, 4 and 2 came under the ancient heading of "upsets" who play fine golf but whose aciayed until after the deluge, most of the traps had a pool of water in them and some of them were miniature lakes. #### PIPGRAS BLANKS ANGELS

INDIANS SCORE QUICK
The Indians got to Barfoot for the opening run in the second inning when Clyde yielded a couple of hits in the wrong places. Sherilock started the inning with a single to center and advanced to second while Staley was throwing out Cumbringham. Oiney came through with a single to right and Sherlock in single to right and Sherlock in second while staley was throwing out Cumbridled to Jones and it looked as though there would be more scoring. However, Olney was caught trying to steal third on what looked like a foozied hit-and-run play and then Ainsmith popped to Dittmar for the third out.

Seattle scared another run in the fifth when Ainsmith doubled into the left field corner, took third on Fipgras's infield out and scored when Barfoot crossed Warren up with a wild pitch. Neis then doubled and Elisworth walked, but Barfoot and Dittmar picked Neis eff second for the third out.

the third out.

Three more Indians refused to bite the dust in the sixth and managed to make their way around the war path with some more runs for the Beattle total. Ruble punched a one-base shot to right for a starter and scooted to third when Sherlock bumped a hit to center. Cunningham sacrificed Sherlock to second but Ruble remained on third. Whereupon, the pestiferous Mr. Ol-ney stapped a single through the box that scored both Ruble and Sherlock. Warren might have tagged out Sherlock, but he let Schulmerich's throw get by him and Olney Rolls. Two-base hits—Ansmith. Nets. Barriet. Summary B

continued on to second. After Mul-ler had akied to Hood, Ainsmith sin-gled to center and Olney scam-pered over the plate with the third run of the round.

#### BASEBALL RACES EXCITING

Scals lost valuable ground by dropping two games to Portland this week. Of course, the tremendous power of the Scals makes them dangerous at all times, but Manager Williams is having trouble with his hurling corps.

If you'll take Gwynn Wilson's word for it there is virtually no chance of Southera California scheduling a football game with any members of the Big Ten this fall. Chicago signing with Washington has prompted some discussion anent the Trojans inviting one of the midwestern teams into a home-and-home agreement.

However, the Big Ten still has a rule against post-season games, the Chicago-Washington tilt being billed for November 23, the last Saturday on the regular playing schedule. Of course, the Trojans can invite some team during the regular season, but hardly this fall, for S.C.'s schedule is complete.

You can look for negotiations between Southern California and possibly Illinois or Minnesota in the future, however, for Chicago and Washington have paved the way for intersectional games between Big Ten and Coast Conference teams.

Harry Carr wrote thusly the other day in his column:

"The Santa Monica correspondent who telegraphed the furious tidings that Will Rogers fell off a polo horse has taken his fair young life in his hands."

The correspondent happened to be Roger Greene, sports editor of the Santa Monica Evening Outlook, a young man who is an entertaining writer. He replied in this vein to Harry Carr's warning:

"Timbuctu (Central Africa) Aug. 22.—Well, cheul. Here is your correspondent 'way down here in Timbuctu, where we arrived by toy balloon this morning after reading the grim warning to us from Mr.

balloon this morning after reading the grim warning to us from Mr. Harry Carr in the "Lancer" of the Los Angeles Times.

It is too late now and we shall spend the rest of our days brooding over it in the jungle depths here, but if anybody should happen to run across Will Rogers, please tell him that a horrible mistake has been made, that the furiousness of the tidings momentarily unhinged our reason, and that what we really meant to say was that the horse fell from under Will Rogers!"

YESTERDAY morning at breakfast I upset the sugar bowl and 4-year-old John, whose porridge already had been amply sugared, seized his chance to scoop up a handful and pour it into his bowl before we could stop him.

Then 5-year-old Charles asked, innocently: "May I have too much, too-because John has?" That boy's attitude toward life summed up what's wrong with all America, if not all the world. We all want too much-think we have a right to too much-not because we need it but because some other fellow is get-

If fate upsets the sugar bowl in front of us, do we quickly put our hands behind our back and say: "Nay, nay! We know that all through history too much sugar has been bringing men and nations to their downfall, and we will not take one igrain more than is good for us."

We do not. We don't take time to say anything in words. We say

	AGO, Aug. 23. (Exclusive)-Frost
	ern Canada, with temperatures as
	25 deg. at some points, led to ap-
	ion of damage to the new grain
	n that country and was largely
	ble for a sharp upturn in values.
	nessages indicated that the frost
	curred in sections where the bulk
	wheat had been harvested, but
	ports suggested that the late sown
	had been damaged in quality at
	This caused a wave of buying.
	e close on wheat at net gains of
3463	here, while Winnipeg was 31/2 @
3%e h	cher.
	was easy early on further bene-
ficial r	ains over the belt, but firmed up

Men from Schooner Jewett Tell Sad Tale of Voyage Chief Complaint Centers on Sardines and Anchovies

New Vessels for Run Here to be Built in Sweden

Sardines and anchovies as a diet three times a day soon lose their novelty, particularly after six weeks F. Carson and M. P. Abrahamson. They reached here yesterday from Turtle Bay, Lower California, where they have been on the schooner W. F. Jewett, swinging idly and half awash, the aftermath of an

WORK TO START ON NEW JOHNSON LINERS

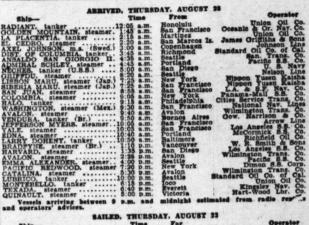

Construction on two motor liners. construction on two motor liners, carrying more passengers than any now on the run, will be started in Sweden at once for the Johnson Line's Pacific-European service, it was announced yesterday on arrival of the motorship Axel Johnson from Function

with bountiful refrigerating holds for carrying bananas north and Pacific perishables to Europe. Three others of similar size will be built at the same time for the Johnson Line's service from Scandinavia to South America.

Another new Johnson motor liner, the Margaret Johnson motor liner, the Margaret Johnson, is due out here on her maiden voyage late in October or early in November. She is a sister ship of the Axel and Annie Johnson and will be commanded by Capt. David Liljequist, commodore of the fleet.

The Axel Johnson, in yesterday with forty-six passengers, thirty with forty-six passengers, thirty disembarking here, was under com-mand of Capt. Oscar Gedda, for-merly on the Balboa. Among the merly on the Balboa. Among the passengers were the wife and son of former Judge Weyle, who have been settling the Moissant estate, which includes one of the largest sugar plantations in Central Amer-

The election, long overdue, was the first business of the session and Commissioner Kleinberger nominated Commissioner Woods. Dr. Crist seconded and Kleinberger moved the nominations be closed.

Woods asked to be heard before the nominations were closed and said he would be unable to act as president. He then nominated Commissioner Pontius for re-election. Spradling seconded the motion. President Pontius asked that his own, vote be recorded for himself, making it three to two, as Commissioners Kleinberger and Crist declined to vote.

After the election was over, the atmosphere appeared to clear except in respect to Spradling. This was revealed when a recommendation by Dr. Parrish that milk handlers be required to present themselves to the health department for periodical examination came up for action.

Spradling immediately opposed it, declaring the dairymen are suf-

Devil Canyon again was seriously endangered last night when the forest fire which has been raging in Cajon Pass for six days jumped completely out of control across the 300-foot firebreak in Cable Canyon and fanned by a stiff southwesterly wind began rushing eastward toward the city's water supply.

More than 400 men were at work to check the conflagration and an emergency call was issued by forest officials for an additional hundred to relieve the worn-out men who have been fighting the flames almost constantly the past six days. The Riverside county board of forestry has been asked to send seventy-five men and it is believed a large number will be detailed to the fire from Sherman Indian Institute at Arlington.

Angeles Forest officials responded to the call for assistance with a quantity of equipment and are pre-pared to recruit additional men if needed. AID CALL ANSWERED

pared to recruit additional men if needed.

The fire was burning over a half-mile front on the northern end of Cable Canyon and within less than a half-mile of Devil Canyon. Efforts to back fire were abandoned when it was found the wind had not subsided enough to make such methods safe. New firebreaks were being constructed a few hundred yards from Devil Canyon but heavy brush and timber so impeded the work that officials expressed grave anxiety as to whether or not the breaks would be completed in time to check the flames.

WIND REVIVES

After concentrating all efforts on the east front of the configuration Wednesday, it was reported by Supervisor Nash-Boulden of the San Bernardino Forest that, barring mishaps, the ravaging fames had been controlled and danger to the watershed removed. At 4:30 yesterday afternoon, however, a sudden wind whipped the fire into activity and before rangers could act it had jumped eastward in Cable Canyon and was within a few hundred yards of Devil Canyon.

Four friends of the bridal couple present during the ceremony were not allowed to act as witnesses because they refused to reveal their identity. Two of them said they

in Cable Canyon and was within a few hundred yards of Devil Canyon.

Yesterday's outbreak was the third since the fire started Friday when rangers believed control had been effected on the Devil Canyon front only to find that winds had destroyed their work.

ACREAGE BURNED

More than 15,000 acres have been burned over in Cajon Pass, according to estimates prepared by forest officials who declare this is the worst fire in the history of the San Bernardino reservation. The national government has spent \$15,000 fighting the conflagration, while the county and city have expended almost as much more.

Small patrols are engaged in checking the area which was burned over in the early stages of the fire and report that all danger had passed in Lone Pine and Cleghorn canyons and the resort district of Lake Arrowhead.

TEN FIRES RAGING

acres of brush and timber have been destroyed by flames this week.

The worst fires are in Stanislaus National Forest and vicinity, according to forestry officials here, where the flames have jumped the line at Indian Springs and are out of control on Clavey Creek. A high wind is blowing and the fire is sweeping on toward valuable timber in the Jawbone country after burning over 27,000 acres.

The Kaweah River fire is reported under control, while only partial control has been effected in the Converse area near Sequois National Park. More than 7000 acres on which were many big trees were devastated. Valuable timber also (Continued on Page 18, Column 3)

day. All of them are from Ventura county, representing expenses incurred by county employees in investigating the disaster, automobile hire, repair, meals, hotel bills and labor hire.

Other claims covered material furnished for repairs and damages to bridges. The county is asking \$88,784.50 for the destruction of the Bardsdale bridge; \$54,895 for the Willard bridge, and \$4837.50 for highway repairs. The claims were referred to the Water Bureau for checking and repair.

Playground Body Holds Ordinance Lacking in Teeth and Demand Its Revision

Draft of the City Council's proposed ordinance for jurisdiction of

Venice beaches, submitted to the Playground and Recreation Commission by the City Attorney for approval, failed to find favor with that body yesterday. It was returned with the declaration that the "teeth" placed in the original draft had been removed. It was requested that the City Attorney place the "teeth" back in it again.

Diagonal in the original draft had been removed. It was requested that the City Attorney place the "teeth" back in it again.

Acting President Rittenhouse, whose explained that the ordinance had been proposed to the City Council by the Playground Commission, declared the draft as submitted yesterday gives no jurisdiction whatever over present structures, but provides regulation only for structures which might arected on the public beach in "arture.

In addition, he held, the ordinance provides no measures for maintenance of present plers and groins.

Commissioner Rittenhouse said "It was unforturate that a copy of the proposed ordinance had gotten into the hands of beach interests," and he expressed the view that these interests had a hand in suggesting changes which resulted in the ordinance not being suitable from the playground viewpoint. He mentioned one group which, he said, had complained bitterly about the ordinance after seeing the first draft of it.

BUSINESS-LIKE BABE

When a professional sportsman runs up against a hard-boiled business man he generally gets the worst of a deal. Bill Tilden, Charley Paddock, Red deal. Bill Tilden, Charley Paddock, Red Grange and Jack Dempsey are said to have been "taken for a ride" when they treated with vaudeville and movie peo-ple, and never realized half the money they were reputed to have received. But Babe Ruth, unlike the other celebrities in his class who gladly accepted a per-centage of the receipts, said that a little old \$30,000 in real money would be enough for him, and the magnates could take all the profits themselves. That there were no profits didn't worry Babe when he took his bundle of kale away from Hollywood. The trouble was that from Hollywood. The trouble was that as actors all these men were very good athletes and players on the green, but somehow failed to click with the theater-

As a matter of fact,

FOR THE LEGISLATURE Inasmuch as Los Angeles has about half the State Senators and Assemblymen to which she is entitled, it is of the first importance that the delegation from this county to Sacramento should be men of more than average ability in

order, so far as possible, to compensate for the gross inequity of the situation.

Men of this stamp are not found in the retinue of a political boss, as Los Angeles city has had ample proof in the recent past. Nevertheless, the Kent Par-rot organization has proposed to extend its sway to the Legislature, and has almost a full ticket in the field for the

Legislative offices.

Their candidates, in practically every instance, fall to stand for the principles which Los Angeles has grown into one of the leading communities of the world. The city administration, in alliance with the labor union organizers, purpose to make Los Angeles a closed-shop town, and need a union-labor delegation from

this county to effect their ends.

If the fight were frankly in the open, the situation would not have its serious aspects, because the people are warned against the inroads of the professional gitator. However, the Parrot candidates disavow their mentor in most cases, and offer themselves as "independent of any political organization."

Parrot has a working agreement with the San Francisco bosses, who go far to-ward controlling the political destinies of the State in spite of the fact that there are nearly four times as many

In short, if Parrot controls the Los Angeles delegation, this county will have lost its entire representation, for Parrot will vote them as the northern bosses

Due to the activities of professional politicians in the north, the northerners refuse to grant the south its just propor-tion of representatives, and seek to ob-tain the lion's share of appropriations for highways, schools, institutions and the like.

In Los Angeles county the Republican nomination is tantamount to election.
While numerous candidates appear for
the legislative offices on the Democratic,

Therefore, it be-hooves every citizen with an interest in his State and his home to cast his ballot for real legislative representatives at Tuesday's election.

A complete review of all candidacies and issues, together with the recommendations of The Times thereon, will appear in The Times next Sunday.

The appointment is in some respect a personal one, since the President and Mr. Whiting have been close friends for years, but it is none the less made on a basis of merit and fitness.

SIGNS OF SANITY

A sign of returning sanity in the Municipal Power Bureau is the agreement reached with the Southern Califor ison Company. This agreement means that the city will not squander some \$5,000,000 for a steam plant for which there is, and will be, no need, and that the Power Bureau will thereby be better enabled to meet its legitimate obligations, It also settles some pending litigation over bills for service and over taxes—and settlement of litigation is generally a good thing, since few besides

lawyers ever profit from a suit.

Intended to save the face of Chief Engineer Scattergood, doubtless, is a pro-vision in the agreement that the Edison Company will set aside, at its Long
Beach steam plant, a 35,000-kilowatt
unit exclusively for city use. This is
10,000 kilowatts more capacity than the
Power Bureau would have obtained in its own proposed steam plant, the dar-ling of Scattergood's heart and of that of his principal supporter on the Power Board, Dr. John R. Haynes. If the city required a steam plant—and Scatter-good was never able to furnish any proof that it did that satisfied anybod but Dr. Haynes—it now has one, built by competent engineers and to be operated by men who know more about electricity experience and would manage to run than about politics. OS ANGELES is becoming one of L the world's great music centers.
Within the last few years, thousands of prominent mu-sicians have located ently in Los Angeles territory, 3 and every year hundreds come for a season. Many famous teachers, such as

Graveure, the Belgian tenor; Stojovsky and Gallico, pianists, and Borisoff, violinist, hold master classes here every year, and thousands of pupils from all over the West, who otherwise might go to Europe to study, come here, musicians tell us.

The Overflowing Bowl

The Hollywood Bowl concerts probably have done more to inspire widespread enthusiasm for good music than has any other agency. The Bowl has captivated the public imagination. It appeals to lovers of the great outdoors as ge auditorium ever can. While its leadership has won it the solid support of our "apper crust" it is the great unvaulted Temple of Music in which rich and poor may gather in equal humility in may gather in equal humility in worship of their muse. Thousands of music students who cannot afford to buy tickets are given tickets, and no one who is known in musical circles to be a sincere and devoted struggler toward either the high altar of music or any of its wayside shrines need lack the means of admission.

The Appreciative Hermit

There's a bellihop, for instance, who is not studying chemistry, as so many are supposed to, but music in every spare hour he gets. He gets to hear every Bowl concert which occurs when he isn't on duty. And there's one of our well-known hermits-what you might call one of our hermits-about-town—who is an ardent musician. He is a regular visitor Public Library, where he borrows sheet music and retires to the soundproof piano room

It's the only place, perhaps, in Los Angeles herly alone. He told Miss Gladys Caldwell, in charge of the music department at the library, that

The Coolidge Concerts

The Elizabeth Sprague Coolidge con-certs are a notable recognition of the growing importance of Los Angeles as growing importance of Los Angeles as a music center. Every summer Mrs. Coolidge gives these concerts in Ven-ice, Paris and other European cities, where the elite of the music world are eager for them, and every spring she comes to Los Angeles for a season Mrs. Coolidge has won international recognition as a sort of high priestess of chamber music.

Our Faith in Pasadena

T. H., South Pasadena, is much alarmed over a clipping which he sends us, taken from the fashion hints of a Pasadena paper:

For evening wear, a large chif-fon handkerchief is carried in the hand. But we can't believe that staid Pasadena is outstripping the beaches

ices of Scattergood for the time he was lobbying for the plant, if those services can be called worth anything. But it is saving \$5,000,000 plus \$300,000 a year, the

Better yet, this conservation of resources is likely to dissatisfy both Scattergood and Dr. Haynes, and it is to be noped that both will be so discontented with it that they will resign and permit the reorganization of the Power Bureau on a business instead of a political basis. If this could once be done it would be a

join the other feminine drinkers at the "family entrance."

Many Saturday nights saw a man wrestling with his thoughts before a wnshop. If he redeeemed the pledges held there, it meant just so many drinks less at a mahogany bar. At home chil-dren grew up deprived of the rightful pleasures of youth; women wept, real-izing that when their men came home, there wouldn't be enough left from the pay envelope even for the meager living planned for the next week.

But today it is a different story. Ask a child what a pawnshop is—they don't know! The three brass balls—glaring symbols of saloons and striking barometers of the economic value of booze-be-

No more striking example of the elevation of the American people through the Eighteenth Amendment can be shown than in the passing of three brass

GREEN GOODS UNDER PAPER
Save your old papers and let them

The original story is in the Scientific American and the writer supplies proof of some wonderful results from the se of paper in stimulating plant growth. It has been known for years to the pineapple growers in the Hawaiian Islands, where there has been a 30 per cent increase in the crop at a huge saving in

Our own Department of Agriculture has been carrying on tests for three or four years and in every crop except the meek and lowly peanut the results have been surprisingly beneficial. In the Ha walian Islands a special grade of coarse black paper is used. The planters bought more than \$500,000 worth of it last year, but they more than got their money taining a site, and it has lost the serv- back. The tough paper is spread over

the soil. The result is that the sharp shootings of the young plants puncture this with ease, but the weeds are smoth-ered and killed. The use of black paper drew the sun and raised the temperature of the soil. The rains would reach the earth by degrees—between the shoots of paper or down the stems of the plants. In this way the moisture would be retained and have more enduring value.
Also the original cultivation of the soil would be preserved throughout the en-tire growing period. This all makes a wonderful difference in the use of labor n caring for the crop.

In this country the experiments with a almost every child knew the meaning of three brass balls suspended over the doorway of a shop littered with articles, each with its own story of want, crime or greed. I should like to call your attention to the fact that the Orthopaedic Hospital of Los Angeles has had a serum service for the last three years and serum is supplied to the medical profession upon request, for diagnosed cases of infantile paralysis. The service in the north was only established last year, and it is no more than natural that we would like to have credit for the work we are doing along this line when the opportunity presents itself. In case you are interested you might bear this in mind and later get direct information in regard to it.

PARIS SUEWAYS

In the struggle of all large citles to solve their traffic problems, it seems that every solution provides for something to be buried, either the streets or the traffic. New York has talked of plans to entomb the streets under double or triple-decked boulevards. Paris is now direction, either up or down. The Paris plan calls for tunnels caut-oed with three large, rapidly-moving trakes. One would be used for boxes and bundles, another for predestrians, and a third for automobiles. The tracks would move along briskly from station to station. At the desired destination, for pursangers would hop off, and the street under package presumably would be per solonoopo francs, its sponsor, M. De La Venne, is ready to go to work on it.

RELIEF COMMITTEE

BY EUGENE BROWN Letters of a Fond Disciple Peerless Leader XXIX

My dear Al: Yours of recent date is at hand and it gave me quite a jolt. You seem to have messed up the works. I thought you told me you were going to refuse the nomination or else decline in favor of Coolidge. Instead of that you go ahead and become a hot-foot candidate. You say something about going out and making a fight. Don't you know that it is peace we want?

want?

We were having such a nice restful time until you threw a brick in the window. You are a good fellow, but you must have been listening to the birdies.

You figure that if you turn in and relieve the farmer it is going to help a lot. Let me tell you something. This ranching business is something you can't do with a corkscrew and a nail file. It is a job for a heavy-weight with a kit of tools that you can't carry round like you

file. It is a job for a heavy-weight with a kit of tools that you can't carry 'round like you were a piano tuner.

I see where the Tammany idea of help is to not wait for the election, but to turn in and form a Tammany farm-relief bureau at once. I think the big idea is to put a silkworm in every American home. In this way our loved ones may be able to provide their own stockings and teddies. These things constitute one of the heaviest cover charges we have today. With individual silkworms for individual voters the American citizens will be able to march to the polls looking like lilies of the field when they gratefully plump their ballots for their peerless leader, Jefferson Jackson Smith. Another noble inspiration from the Tammany farm-relief bureau is the switching of crops and I think I can see your own impulsive and generous heart in this. You mean well, but how come? The Tammany philas.

and for once there is a real incentive for every woman to exercise her privilege of the ballot. Other nations, less favored, perhaps, materially, but with a desire to improve their conditions socially and otherwise, are watching anxiously to see if we are able to "make the grade."

We cannot afford a false step or a step backward. The leaders of the two parties are so diametrically opposite, the issue so clear cut and so vitally important, that it should appeal to every homemaker and home lover, regardless of party or party affiliation.

Mr. Hoover's speech rings true to every interest of the home, and the welfare and happiness of its occupants which is, as he says, the foundation of all good government.

We have ample assurance of his sincerity, his knowledge, and his great executive ability to safeguard and protect these interests as far as is in his power-to do so.

A MOTHER.

HOLLYWOOD, Aug. 21.—(To the Editor of The Times: I In an editorial entitled "On the Run" you say it is pretty early in the game for the Governor to be compelled to start explaining. The writer will go you one better and say that the Governor should never undertake to explain anything at any time or place to a bunch of political preachers, but so long as the large dailies like The Times will give this kind of trash publicity you may be sure that the preachers will keep up the how.

#### Memorial Rites for Valentino Conducted Here

Simplicity marked the services yesterday at the second annual memorial rites conducted for Ru-

the inscription in flowers, "We never forget."

Father Joseph A. Sullivan, president of Loyola College, opened the ceremony by outlining the purpose of the occasion and telling briefly Valentino's history and his accomplishments in the art of cinemaland. The local Italian consul, Municipal Judge Blake and Alberto Guglielmi, brother of Valentino, were the other speakers, the latter thanking the friends in behalf of the family for so honoring the memory of the late screen star.

The altar of the cross was banked with flowers sent by Valentino's many friends from all parts of the country and distant lands and by the Valentino Memorial Guild and the Valentino Memorial Guild and the Valentino Memorial Guild and the Valentino Association. Several hundred men, women and children and a sprinkling of film people attended the services.

Valentino died two years ago yesterday noon. These hands must not be bid or played "Double Dummy," i.e., as though all four hands were exposed.

How a true complexion soap of Nature's beauty oils brings natural charm to your skin

WASHING the face at least once daily in this way is concededly the most important beauty rule of the day.

Thus pores release their daily accumulation of grime and cosmetics. Thus skin is kept smooth and velvety — girlhood's charm retained.

Then rinse the face—first with warm, then with colder water. And dry by gently patting the skin with a soft towel. Last of all, a dab of cold cream to guard against dryness. That's Nature's rule. It's simple, but a week will prove its value to your skin.

## **POLICE JUDGE**

Assertion Made Three Men Sentenced Illegally

Hearing on Sunday Morning Basis of Complaint

Prisoners Said to Have Been Denied Proper Trial

SANTA ANA, Aug. 23.—Petition or a writ of habeas corpus, charging Police Judge G. E. Nactkemper of San Clemente with illegally senencing three prisoners to the County Jail on a liquor charge and de-manding their release, was made in Superior Court today by O. A. Ja-cobs, on behalf of James Flores, H. Primero and Rosa Martinez, the

prisoners.

The trio, arrested Saturday night, the 11th inst., by Police Chief Forrest Eaton of San Clemente, were called before the judge at 12:30 a.m. Sunday, according to Jacobs, who declares this to have been illest precedure.

Jacobs, who declares this to have been illegal procedure.

The petition asserts further that the prisoners were sent to jail that night, Flores being ordered to serve 250 days in lieu of \$250 fine, while the other two were booked as "held to answer," indicating that they had been given a preliminary hearing. Four days later, it is charged, the court sent commitments to the jail, requiring the other two prisoners also to serve 250 days or pay fines of \$250 each.

Sentence was passed, it is asserted, without the prisoners being given trial or being brought into court, except for the midnight arraignment at the time of arrest.

The prisoners had not entered a plea to the charges against them, Jacobs charges.

#### Oxnard Wants Condemnation for Theater

OXNARD, Aug. 23.-Condemn tuted against George Sunderman property owner on Oxnard Boulevard, by City Attorney Charles Blackstock at the request of the City Council, for the purpose of having Sunderman tear down an old building on the boulevard.

Oxnard Boulevard is being widened twenty feet and all of the buildings in certain blocks are either being moved back or torn down. The building owned by Sunderman now houses a Mexican theater and has not yet been removed. The city asserts the structure is without interior supports and that buildings on both sides have been torn down, leaving it in a weak and menacing condition. According to Councilmen Roy Cuyer and Ed Abplanalp, both building contractors, a heavy wind might raze the ancient structure, which probably would be fatal to many of the reproperty owner on Oxnard Boule

Officer Schad Tells Story on Witness Stand

PASADENA, Aug. 23.—Ray Peltier, bank bandit who was captured by Traffic Officer R. L. Hinton, his accomplice in the robbery of the Pasadena National Bank branch, was held to answer on charges of attempt to murder, and robbery this afternoon when the preliminary hearing was completed in the Pasadena Justice Court.

Judge J. Russell Morton denied a request for continuance of the hearing, made by Attorney W. M. Caldwell on the ground that the defendant's counsel. S. Hahn, is engaged in the trial of Leo P. Kel-

Ey prosecuted the other case in which Joseph Lanzit was convicted in Los Angeles of attempting to dy-namite a house in which his wife and her brother were living. SEVERE PENALTY POSSIBLE

The majority of such cases, according to Ey, are prosecuted on a charge of deadly assault or assault with intent to kill, which carry sentences of from one to four-teen years. The attempt to murder charge which Petiter faces carries a sentence of from one to twenty

torneys, is said to indicate that a vigorous defense will be made in his behalf.

Officer Schad was the first witness placed on the stand. He told of seeing the light touring car on South Orange Orove avenue driven by Peliter with Hinton in the rear, firing a repeating rifle at the police car occupied by Lieut. Lynn Harrison and Fred W. Walker.

The witness testified that he did not fire a single shot until after Harrison's car was put out of commission and Walker was seriously wounded at the intersection.

#### License Taken for Speeding

REDLANDS, Aug. 23,-High school and university boys who fail to observe the traffic laws and who use the city streets for speed tracks, are going to find themselves walking this year. Judge C. G. Potter announced this morning that during this winter he plans to take operators' licenses away from such of the record established at San

tors' licenses away from such offenders.

"There will be no cash fines in
most of these cases in the future,"
said Judge Potter. "Chief of Police
Walter Thomas and I have conferred on the matter and we think
the rule that will be followed will
be taking away the operator license
for one month on the first offense,
for two months on the second offense
and probably for six months on the
third offense."

Judge Potter started the new ruling this morning when Craig Bruner, charged with speeding, lost his
license for sixty days. He also told
Bruner that it would be for a longer
time in case of another offense.

on trial in Superior Judge Yankwich's court on the charge of embeszling nearly \$100,000 from the
gas company, by Dep. Dist.-Atty.
Dennison. At the close of the court
session the prosecutor indicated that
he expected to continue his gruelling cross-examination of the wit-

period of three days.

Sweeney on direct examination and under cross-questioning prior to yesterday had testified that he had paid out to David M. Carroll, minute clerk of the City Council, Lewis E. Whitehead, assistant city attorney, and former City Council-men Bert L. Farmer and Fred C. oribes to get certain measures, favorable to the gas company, passed by the Council. He also testified that his expenses for entertainment, cigars and liquor for city officials reached a total of around \$0000, making his total expenses for the

CHECKS INTRODUCED penses, totaling \$368,491.29, drawn on his bank account between the years 1922 and 1928. At the same time Dennison told the court that Sweeney's bank deposits did not exceed that amount. The proceduror listed Sweeney's deposits as

DEPOSITS LISTED ers drawn on the gas company 187,583.56; salary, \$57,907.86; loans satery, \$57,907.86; loans on insurance, income from stocks and land holdings, \$67,311.29, making a total of \$312,802.71. The difference between that amount and the amount expended was made up in cash deposits, the money for which was obtained, according to Dennison's assertions, by a process of high finance.

To support this latter contention Dennison introduced approximately 1000 checks drawn by Sweeney to.

In the face of these facts and the figures covering his personal expenditures and his total deposits. Dennison called Sweeney's attention to the fact that there was no evidence to support his contention that he had used the money obtained on the fictitious vouchers to corrupt the city officials.

"You had no money to corrupt them with," declared the prosecutor.

The measure also provides for prosecutions of fruit and vegetable peddlers who pile fine stock in front for show purposes and sell over-ripe products from the back of the nice-looking pile. There is a State law against this practice, but Dr. Parrish explained that his inspectors will be able to aid the public better by making arrests under a city measure.

The amendment provides that it shall be unlawful to sell fruit or vegetables from any stable, shed or place where animals or fowls are kept, or where the water is contaminated.

Undue Influence Attributed to Sister and Another

Probate of Earlier Document Sought in Contest

Charging the late Earl A. Fraser, Cocan Park amusement millionaire, was unduly influenced in the making of his last will by his sister.

Mrs. Ethel Fraser Prentiss, and by Mrs. Harriet's Lee Schachtrupp, Mrs. Lillian R. Fraser, the widow, filed a contest yesterday in Probate Court to have the will set aside.

Fraser was killed in an automobile accident July 21, last, shortly after he and his wife had engaged in a contested divorce case in Superior Court. Under the terms of the will in question he is said to have left the bulk of his estate to Mrs. Prentiss and a large bequest to Mrs. Schachtrupp. Mrs. Fraser asks that a will executed in 1924 and in which she is left practically all of Fraser's estate be admitted to probate in place of the latex document.

Animated replicas of Godey's Magazine (fortress of fashion of our grandmother's day) languished through innumerable scenes in the most impeccable Victorian mode. All the pomp and circumstance of that fascinating era of furbelows and bustles and sweeping trains were exemplified by the actors; the highflown and resolute tempo, with SEE & HEAR highflown and resolute tempo, with its dignified Handellan pitch, its high moral tone, was never for a moment lost.

The sine qua non of the drama of the decorous Victorians was not lacking either, for there was a beauteous and beleaguered lady, daughter of an English Earl, a misunderstood and noble husband betrayed, a deep-dyed villain, a dying child; in fact, everything for a real honest-to-goodness melodrama.

In those days the play was the thing, and the actors were allowed to act. There were no inhibiting and prohibiting stage managers as in this modern age. In the matter of emotion, the sky was the limit and every tear was conscientiously wrung. Too much imagination in the audience was evidently not to be encouraged. HEAR! ANTONIO MORENO

The theater was packed to capacity last evening, and the drama, woven around the life of an extremely eccentric English family, received a warm reception.

It would be indeed difficult to sketch the plot in any manner, shape or form, so complicated did matters become even in the first act. The story takes place at the Bliss country home during a weekend. It seems that each member of the family has invited a guest, to his or her special liking . . . and each without the knowledge of the other. This alone would be enough to keep a play going through three acts . . but not content with it, Coward involves each guest in a love affair of some sort or another, until at last even the audience is at a loss to know just who belongs to whom.

The cast was a good one, headed by Virginia Kinney as Judith Bliss, ex-actress, and mother of the family. Miss Kinney gave an excellent characterization, and several of her scenes earned the hearty plaudits of the audience.

ows, a peace-loving bachelor, overhears a violent argument on a street corner between a husband and wife over the latter's pet Pekinese, which the husband has sold. Meadows, out of a mistaken sense of chivalry, interferes, has his eye blackened by the husband, and finds himself with the hysterical wife fainting in his arms. From this point on Cohan has developed his story by means of continuous humorous episodes.

Westcotts," is now at the Hollywood Play House with the Henry Duffy Players, in the important role of Daisy in 'Lombardi, Ltd."

Daisy is a wise-cracking mannequin who desires a career of luxury and ease and does not care by what means she obtains it. She occupies the chief comedy role in the play and Miss Luddy was chosen to act it here because of her success in the part in Portland, where Carrillo recently starred in 'Lombardi, Rtd."

Others in the cast supporting Carrillo, in his original role of Tito Lombardi, the youthful, handsome, credulous, excitable and incurable romantic Italian, proprietor of a fashionable dressmaking shop, are Helen Ferguson, Irving Mitchell, Olive Cooper, William Dills, Ina Rorke, Marie Wells, Alice Keating, Margaret Landis, Dorothy Dwan, Corinne Ross, Eunice Quedens, Ethel Lee, Anette Lorraine, Jean Rogers, Harry Adams and J. Irving White.

There will be made for innovations and new attractions in vaudeville. There will be made for innovations and new attractions in vaudeville. There will be mouthly 'New Ers' It follows the recent consolidation of the Keith-Albee circuit of the East with the Orpheum personnel of the East with the Orpheum personnel of the West and is to mark the beginning, it is said, of a "new regime in vaudeville."

According to announcement from Joseph P. Kennedy and J. J. Murdock, chief executive of the circuit, just before sailing for Europe this week, the celebration is to be "farreaching in its various ramifications. It will be a gesture toward arousing renewed interest in vaudeville, to encourage artists and producers, as well as to improve the quality and service."

The celebration is to a said to have been accomplished perfectly by Constanting lakelenikoff and the augmented Criterion orchestra. In fact, the statement is made that so cleverly does the conductor blend his music into the opening strains of the love theme of "Street Angel," that it is only when the lights in the orchestra pit are dimmed that the audience is aware of the fact that the musicians there have ceased playing and that the Movietone accompaniment is in full swing. "Street Angel" is the first of a series of sight-sound 'pictures booked for the Criterion.

WOMEN IN REDS' CASE CONVICTED

Three Taken in Custody

Three Telesn in Custody for Soliciting Funds to be Sentenced Today

Mrs. Mary Ostrow, Mrs. Limits Henkin and Mrs. Rose Eitman, asserted Communists, were found guilty by a jury in Municipal Judge Sheldon's court yesterday of violation of the dity ordinance covering solicitation of funds for charitable purposes. They will be sentenced at 11 a.m. today.

The three were arrested by the police Red squad under Detective Lieutenant Hynes at the same time as the seven men who recently verreconvicted of the same offense before Judge Reed. Testimony by Hynes yesterday showed that each of the yomen was in company with one of the men and was helping him solicit funds at the time of the arrests.

Books of so-called solidarity certificates, taken from the women, were introduced into evidence by Deputy City Prosecutor Hornaday. The certificates on the reverse side urge the purchaser to "agitate for organising the unorganised, for one national agreement and a national miners' strike." and state that "this solidarity certificate has helped encourage mass picketing and fight the financions." Other Hierature taken from the women at the same time advocates the organisation of a Communist society in the United States.

Gets Probation

U. L. Kyle, former Burbank police officer who recently pleaded guilty to two counts of a statutory offense against his niece, Hazel Dedmon, 14 years of age, yesterday was granted two years' probation. The first year to be served in the county road camp.

Judge Edmonds pointed out that only Kyle's excellent record as an officer in the Burbank police department saved him from a penitentiary sentence.

Level to the state of th SAN FRANCISCO, Aug. 29. (Exclusive)—In the midst of a preliminary court hearing on charges of having fired three Belmont buildings, William E. Johnson, 26 years of age, a gardener, who had steadfastly protested his innocence, suddenly produced on the stand today a complete written confession.

He was held to answer by Justice of the Peace McGauliffe and stated he will enter a plea of not guilty by reason of insanity.

NOTRE DAME ALUMNI FIRE BOARD A

The California Club of Notre
Dame University will hold its first
formal dance at the Elks' Club tomorrow night. Priends of the university as well as alumni resident
in Southern California have been
invited. Students and alumni from
U.S.C., U.C.L.A., Stanford and Loyola universities also are expected to
be present, according to announcement yesterday by Lawrence Moore,
general chairman for the affair.

BELGIANE fic and Lighting action in establishing a test area for trucking streets in Hollywood, it was pointed out yesterday that the area was ordered cut down so as to include only that portion of Hollywood west of Highland avenue, eliminating Gardner street and that portion of Hollywood Boulevard west of Highland. It was reported erronsously that the area was to be east of Highland.

Handkerchiefs sent from Porto Rico to the United States in the past twelve months were valued at \$1.341,000, a gain of \$500,000 over the previous period.
